TO THE BEAUTIFIERS OF THE COMPLEXION.

SURPRISING EFFICACY. My, Eau Divine So Vopu and Nymph Soap, composed of an eastern botanical discovery of surprising efficacy for rendering the skin soft and fair, as well as imparting a delicate roseate hue to the complexion. As a creator and conservator of that most distinguishing charm of female loveliness, a transparent fair skin, Jules Hauel's Nymph Soap, or Eau Divine de Venus, may be said to exert an almost magical influence. Composed for the most part of oriental balsamic plants, to the utter exclusion of all mineral admixture, it is distinguished medically, for its extremely bland, purifying and soothing action on the skin; and by acting on the pores and minute secretory vessels, expels all impurities from the surface, allays every tendency to inflammation, and, by this method alone, effectually dissipates all redness, tan, pimples, freckles, sunburn, and other unsightly cutaneous visitations, so inimical to female loveliness. Its use will change a most bilious complexion into one of radiant whiteness; while on the neck, hands, and arms, it bestows a delicacy and fairness which its continued use will happily protect, with every appearance of youthful charm to the most advanced period of life.

PENCIL SKETCHES OF TRAVEL.

LETTER XXVII.
Chicago, Illinois,
July 5th, 1847.

MY DEAR SIR:—

We left Southport last evening at 8 o'clock in the steamer Empire. When the boat approached the wharf, she was literally black with passengers, and it seemed impossible for another one to be stowed away, yet there was about a hundred of us on the pier to go. Before we had hardly cleared the dock, I regretted having taken passage, for I saw that it would be utterly impossible to obtain even a seat, or hardly a standing place, so dense was the crowd. The night was oppressively hot, and we had to amuse ourselves as best we could, during the passage of five hours. Among our number were many ladies, and I was singularly fortunate in finding a friend on board, who gave up his state-room to those who were under my charge. Many of the young men were gay and noisy, and their frequent visits to the Saloon only tended to make them more merry; I doubt if any were able to sleep during the night.

We arrived here about one, but were unable to obtain the privilege of laying on the floor, even; many were compelled to walk the streets until morning. There are more than ten thousand strangers in the city, and all the hotels, private boarding-houses and steamboats are full, and very many families have thrown open their houses for the accommodation of strangers.

Chicago never saw such a gathering before, and it will probably be many years before she witnesses another as large.

Before saying anything in regard to my impressions of the city I will give you some account of the doings here to-day, although your readers will probably have the particulars in the New York papers long before this arrives.

The day dawned most auspiciously for the event, and it has been very pleasant throughout, although rather too warm for my comfort,—the thermometer standing at about one hundred. Before five o'clock, the streets were crowded with people, flags were flying from several public places, and the roar of artillery ushered in the day which has been looked forward to with so much anxiety by the people of the West, for the last six months. For some time before the hour assigned for the formation of the procession, the soldiers and members of the fire department were hurrying through the streets, and all was excitement and commotion; the aged and gray-haired sire, the quiet and dignified matron of many years, the young and gay, thoughtless and happy children, all of every age and sex, came forth on this great gala-day.

At nine o'clock the roar of cannon and the roll of drums announced the hour for the formation of the procession. Line after line moved off from the various points where they had formed, with their bright banners waving in the breeze, attended by the soul-stirring sound of exquisite martial music. All things being ready, the immense body moved through the principal streets. First came the chief Marshal, with two assistants, mounted on splendid horses, bearing the emblems of their office. Then came the Cleveland Light Artillery, a fine company from Ohio; next the Montgomery Guards, a well disciplined body of soldiers, composed of persons of this city; next a company of cavalry also belonging here. Then came a full rigged ship, the "Convention," about fifty feet long, plied upon wheels and drawn by eight white horses; all the sails were set, and the ship was manned by a dozen or more as neat looking tars as ever trod the deck of a ship of war; they were constantly reefing and unreefing, furling and unfurling sails, heaving the lead, &c. Then came the Chief Engineer of the Fire Department, accompanied by his assistants, all in their appropriate costumes, with trumpets in hand, mounted upon beautiful chargers. Preceding them was a splendid silk banner, bearing the appropriate motto, "protect our commerce, and we will protect your dwellings." Then came the "Hope" Hose Company, Bucket Company, Hook and Ladder Company, and the various Engine Companies, all in their proper dresses, with their Engines appropriately decorated, placed upon platforms and each drawn by eight horses. The platforms were covered with carpets, and the edges trimmed with fringe, and six men standing on either side of the platform, leaning against the Engine. The horses of one of the Engines were led by twelve blacks in the gay turbans and full costume of the land of harlems and song; these horses were caparisoned with crimson trappings. Then came a band of music, the city authorities, the delegates from the different States and Territories, with bands of music at suitable distances, forming one of the most imposing processions I ever saw; it has, indeed, been a great day for Chicago, which, but twelve years ago, an Indian trading port, but which now boasts of its sixteen thousand inhabitants.

The procession moved through the principal streets to the Court House Square, where a tremendous tent, capable of seating some ten thousand persons had been pitched for the occasion. The Convention came to order, and the Delegates were welcomed to the city by the Mayor, in a neat and appropriate speech; temporary officers were appointed for the purpose of organizing, and the Convention was opened with prayer, by the Rev. Mr. Allen, of North Hampton, Mass.

A Committee was appointed to nominate suitable officers, and to prepare business for the Convention.

This afternoon the Convention was addressed by the Rev. Mr. Allen, Hon. Thomas Corwin of Ohio, and Horace Greeley, of New York, after which it adjourned to to-morrow morning.

Yours always,
FLORIO.

Highly Important to Persons using Spectacles.

THIS simple but very useful optical instrument becomes in the hands of a scientific Optician, the means of not only giving clear vision to a defective eye, but also to improve and preserve the same to the oldest possible age, by a proper application of its glasses. A fine flint glass, free of flaws, should always be applied with such a degree of convexity or concavity, precisely as the defect of vision requires, not more nor less, or else the result will be a faster decline of vision, and by the accommodation of the eye to an improper focus, will finally terminate in a total inability of reading, writing or sewing, in the prime of life. Persons not acquainted with optical principles, should never select spectacles without the advice of a skillful Optician, as the eye, this great masterpiece of divine mechanism, is a delicate organ, requiring their greatest attention.

The subscriber has taken a room in Vose's Washington House, at the head of Beach road, where he may be consulted for a short time. All persons desirous of obtaining superior glasses, fitted exactly to their eyes upon the first examination, will do well to call. His selection of Spectacles and Eye-glasses is very large, and his mode of applying glasses to suit the eye, will convince the visitor at once that he has trusted his most valuable organ into those hands to whom the same of right belongs.

He also recommends his Terrestrial Telescopes, which are achromatic, as first-rate instruments.

The opportunity offered by the subscriber is rare, and it is hoped will be embraced by the citizens and the visitors of this place, at once.

TUESDAY, AUGUST 3, 1847.

BY O. F. JACKSON, 87-THAMES ST.

The New London papers speak in very flattering terms of their treatment while here on an excursion in the Knickerbocker a few days since, and seem to have been highly delighted with their visit. A large number of those who came dined at the Bellevue House, among whom was Capt. Scofield, editor of the New London Star, and the following extract we cut from his paper of Wednesday.

"...and we arrived at Newport about twelve o'clock. Here the company chose, each for himself, such diversion as seemed good—but a large number, about two hundred repaired to the Bellevue House, kept by HAZARD & ARMSTRONG, where a most excellent, and ample dinner was served up, which gave full satisfaction to the wants and wishes of all. It is no more than justice to Messrs. H. & A. to say that their efforts, on this occasion, adds another, to the proofs which they are constantly giving, of the deserved popularity of their house. Though seemingly full of the fashionable company, resorting to Newport, as a watering place at this season of the year, and consequently overrun with business, yet on this extra occasion, and without notice, they were prepared at every point, and everything passed off as quietly and as satisfactorily, as though their whole energies had been devoted exclusively to the occasion, and they had nothing else to think of. Not one word of complaint have we heard from any quarter of the fire or attention, and from a company so large we take this as no unmeaning compliment, and we are quite sure that 'mine host' of the Bellevue, will feel that we detract nothing from their reputation or credit; when we say that their gentlemanly and efficient assistant STANFORD PECKHAM, contributes his share in polite and unrelenting attention to company, to the high reputation of the establishment. Everything there moves like clock work; and as the proprietors have already won many 'golden opinions,' we trust they are winning what they justly deserve, a golden purse, of no small dimensions."

The Swimming Schools of Paris have opened for the season, and the ladies are among the constant attendants. A Paris letter thus describes them: "Nothing, it would seem, can equal the intrepidity of the fair sex, whenever an opportunity is afforded of engaging in a new pleasure, particularly if it partakes of the character of a masculine exercise. While the men were yet hesitating about entering the water of the river, the ladies have gone in resolutely. These swimming schools are becoming more numerous, and each summer witnesses the establishment of new ones."

In this asylum, interdicted to the profane, and where no man is allowed to penetrate—unless the waiters of the bath, the professors of swimming, and the servants—the fair bathers unfold all the elegance of their dress and persons, imprison their beautiful hair in a cap, and, enveloped in robes of richly embroidered cambric, they promenade and smoke their Spanish cigarettes defying each other as to who takes the most beautiful steps, or who shall remain the longest under water, into which they plunge themselves, floating like so many sirens. On leaving the bath a glass of Madeira or Jamaica rum reinvigorates them, and they renew again their sports until the hour of departure arrives."

Accounts from Mexico in relation to peace commissions, are very conflicting. Later dates from the city of Mexico, via Tampico, say nothing about them. There was no quorum in congress on the 12th; the propositions of Mr. Trist were still pending before that body on the previous day, at which time Gen. Scott had not moved towards the capital. Gen. Pillow's command had joined Gen. Scott. Santa Anna had again resigned his office, and his resignation had been refused.

REINING RETENTION.—A dealer who shipped several thousand bushels of corn from Detroit, a month since, has been called upon for some \$100 to make up the deficiency between the price of freight and the value of the corn!

The late news from Oregon shows that the settlers would have whiskey, whether or not! The Oregon Legislature, which adjourned Dec. 20th passed a bill authorizing the manufacture and sale of spirituous liquors. Gov. Abernethy vetoed it—but they passed it again by the constitutional majority.

"CITY" ITEMS.

Officer Seattle, Sunday constable for the north part of the town, in the discharge of his duties on Sunday last, discovered a gang of young men gambling in a house of bad repute, on Long Wharf. Complaint was made to officer Denham, who had six of them arrested yesterday, two of whom were let off by payment of cost, and promise to do better in future; and two were recognized in jail, to make their appearance at the police court, to be held at the Town Hall at 9 o'clock this morning.

We forbear mentioning any names, as two of this number are young married men, and the others have heretofore sustained a very fair character.

We understand that this house has been complained of as a nuisance to the town council, and it will be broken up.

In reply to an inquiry which we made a few days since as to the locality of 'Monkeytown,' a correspondent informs us that it is situated in the town of Cranston, about four miles west of Providence. He says its proper name is Knuighsville.

Yesterday morning about ten o'clock, the genial rays of the sun made their appearance through a thick mist, and in a few moments the heavens were as clear as a crystal, and the remainder of the day was quite warm.

EXTRAORDINARY FERTILITY.—The New York Tribune says that the lady of Mr. Henry Gosling, restaurateur of Nassau st., last Sunday became the mother of her twenty-fourth child. Whew! Some of these Goslings must be old enough to come under the head of geese by this time, we should think. To be sure some things can be done as well as others, and this is one of them.

Room 173, OCEAN HOUSE, August 2d, 1847.

To the Editor of the Daily News: I deem it an imperative duty to bear emphatic testimony against the want of common civility which characterizes the few holders of Trinity Episcopal Church, in this place. With two ladies in my company, I went yesterday to that church, and although many pews on the middle aisle were tenanted with one, or at most two occupants, no person in them was courteous or civil enough to offer the ladies or myself a seat. The mere want of common civility—or attention to strangers, although bad enough in itself, was not the worst feature of this extraordinary occurrence.

What must strangers and visitors at this place have thought of the patriotism and gratitude of the inhabitants of Newport, when they saw the grand daughter and grand son of a signer of the Declaration of Independence; the daughter and the son of an officer, the aide camp of Major General Lee, who perished his life in the battle of Rhode Island, in defence of the lives, the liberty and property of the ancestors of these very people; and the grand daughter of the private and confidential aid of General Washington, wandering through the aisle unable to get a seat in the church.

If the public judgement should be sufficiently perverted to approve of this disgraceful incivility to strangers, I would beg leave respectfully to suggest the propriety of some Clergyman preaching at this Hotel on Sundays, and thereby relieving its guests from a reliance upon the attentions of those who appear to understand so little of the courtesies and civilities due in civilized society to strangers.

PROU Prouon.

The above communication was handed us by a grey-headed man, with a request that we would publish. We knew not how well grounded his grievances are, but presume that no one would refuse to give him, or any one else a seat, so long as there was room if they had seen him. He says he finally obtained a seat. We can discover no virtue in a distant relationship to a distinguished man, and cannot possibly see what right such has to be introduced into the case. Noble ancestry is of but little avail in these days, and we rejoice to see it so.—Every man ought to stand on his own merits.

Any laxness on the part of the sexton in providing seats for strangers ought to be looked to, and we doubt not will at once be remedied.—Ed. News.

The Columbian Magazine for August has been on our table for several days, and we find its contents to be exceedingly interesting. The Columbian has among its regular contributors, some of the most celebrated writers who contribute to any Magazine, and consequently in point of talents it is not behind any.

The August number contains two steel engravings, a fashion plate, and a piece of music.

Crimby & Hackett, 118 Fulton st., New York. \$3 per annum.

The fine steamer Perry, with a large party of gentlemen and ladies on a moonlight excursion from Newport, arrived here shortly after 9 o'clock on Saturday evening.

We beg leave to tender our thanks to the gentlemen composing the band for the polite manner in which they saluted us.—Had it not been that ourself and family had retired for the night, we should have invited them to partake of some refreshments. May their lives be as happy and prosperous as their music was sweet and well-timed.

The Newport Daily News, the editor of which was among the company, gives the following description of the excursion. By the bye, we were sorry that we did not see the gentleman, as we are inclined to believe him a pretty clever fellow, notwithstanding we have had occasion to believe otherwise. He is undoubtedly a favorite among the ladies of Newport, and therefore cannot be that crabbed old back which we suspected from his apparent hatred of the very name of a darling little baby.—Bristol Phenix.

The editor of the Phenix and his family must have jumped into bed pretty soon after the band made their appearance in front of his house, or at least the light disappeared very suddenly.

(Wonder what favor the Phenix man wants we should do for him? You don't come any of your "soft sawder" over us.)

The Perry made an excursion from Providence to Newport last evening, bringing down between one and two hundred ladies and gentlemen; and after remaining here till half past 10, wended her way back to Providence. The American Brass Band were on board, and played sweetly.

SEIZURE OF WHALE SHIPS.—The New York Gazette, of Wednesday, says: "Letters have been received to-day, by a vessel arrived yesterday from Rio Janeiro, giving information of the seizure of several of our whalers—one account says five ships—by the Brazilian Government. One of the vessels, in charge of Brazilian officers, had arrived at Rio. The writer deprecates that the U. S. naval force is so small on that station, and feelingly inquires when our government will send out some frigates?"

CHINA.—Twelve hundred Chinese criminals are said to have been beheaded in Canton during the last year, and many thousands are now in prison. Since the opening of the seals of the provincial officers on the 5th, the work of decapitation has been renewed. Causes are in operation among the Chinese that must year after year continue to swell the tide of evil, and hasten on some—it is hard to what—dreadful calamity.

ANOTHER STAR TO BE ADDED PROBABLY. The citizens of Brooklyn, which has a population of some 50,000, are in favor of making Long Island a state, with their city as the capital. At the rate which new states are now added to the Union, the federal Senate bids fair to outnumber the lower House.

A MEDICAL HINT TO MOTHERS.—A medical correspondent attributes the high shoulder and the lateral curvature of the spine, which so frequently disfigure young females, to the shoulder straps of their dresses resting below the shoulder, and on the muscles of the arm, instead of being on the shoulder, which compels the wearer to be constantly hitching her shoulder to keep up the dress, an action that results in a forcing up of the shoulder, a distortion of the chest, and a lateral curvature of the spine. He also states that from this dangerous practice, and the consequent exposure of the chest to cold, inward tubercles are formed, and not unfrequently consumption is engendered.

DORCHESTER, Mass., June 15.
Dr. F. Brown.—Dear Sir:—It affords me great pleasure to be able to bear testimony to the valuable properties of your Sarsaparilla and Tomato Bitters. You probably remember the situation I was in when I commenced using them by the advice of my friends; the suffering which I have borne for a long time from the effects of a most terrible humor is almost indescribable; it covered my chest and arms, breaking out at times in quite large sores. Medicine after medicine did I try, without the least relief, and I gave up ever expecting to be cured; but at last I was persuaded to make use of your Sarsaparilla, and Tomato Bitters; but I must say I commenced with great reluctance, thinking it would eventually fail to relieve me, as all other medicines had done. But how happily have I been disappointed! It has entirely cured me. Nothing that I do affords me more pleasure than recommending your Bitters to persons similarly afflicted, and I do most earnestly recommend all to try them before they give up, supposing there is no relief. I now value them so highly I keep them in the house, and use them in my family, as I consider them the best, pleasant, and most thorough medicine now in use, removing all impurities, carrying off all bile, without weakening the system, or being obliged to change your diet.

After showing this to any one, if they are not perfectly satisfied, ask them to call on me, and I will explain my case more fully, which it will afford me great pleasure to do.

June 18 DANIEL PLUMMER.

Ladies in the country and watering places, See how the sun has burnt your faces! Look at your necks—how yellow, dark with tan; Why, 'twill repulse the love of any man! Those freckles, too, you know they'd quickly fly if Jones's Soap you'd use; come once—do try—It costs but fifty cents, and I am told 'Tis worth, ay, doubly worth its weight in gold.

Persons who have had no faith in it, have been astounded at the wonderful effect of Jones'—that is, the genuine Jones' Soap—in beautifying the skin. For sale by Dr. R. J. Taylor.

Radway's Chinese Medicated Soap is superior to all imported French, Berlin, and other Soaps. Tan, sunburn, pimples, blotches, pustules, ring-worm, salt rheum, erysipelas, rash, scurvy, the bites and stings of mosquitoes, rough and discolored skin, pale and sickly complexion all yields to the curative propensities and beneficial influence of this valuable and delicious emollient. In fact, be the complexion ever so disfigured, or the skin discolored or diseased, Radway's truly excellent medicated soap never fails in rendering the skin soft, smooth, fair, sweet, clear and healthy. Many persons suffer great annoyance during the summer season from the troublesome insects mosquitoes. Those persons, subject to these annoyances, by applying Radway's soap to such parts of the caudle as is bitten, it will instantly alleviate the pain, subdue the irritation and instantly remove every vestige of blemish. For general toilet soap it is unequalled, it proves an agreeable perfume, and is entirely free from all poisonous admixtures, or irritating ingredients. It is much cheaper than any other medicated soap, and is acknowledged by thousands to be superior to all others ever offered to the public. No Chinese Medicated Soap is genuine unless signed, R. G. Radway. Be sure to ask for Radway's Soap, and take no other. Sold for 12 1/2 cents per cake, by Dr. R. J. Taylor.

Dear Sir:—I take pleasure in communicating to all whom it may concern, and the public generally, the astonishing effect your truly wonderful medicine has had upon me. I have enjoyed perfect health for four or five years. Physicians told me that my liver was diseased, and that I might some day die with consumption. Last September, 1845, I took a slight cold, which produced a hacking cough; this continued until February, 1845, when I added another cold: my cough increased, I soon lost my appetite, and my strength failed. For six weeks I could not lie upon one side: I sweat very much nights, raised considerable blood during the winter, and could not speak about for two weeks. With all these bad symptoms, I had very severe pain in my side and between my shoulders: general debility followed. I was confined to my room about eight weeks. I had buried a sister and brother, both died with the Consumption. I expected to die myself; my friends also despaired of my life. At this time an uncle, who had been benefited himself, advised me to take

WISTAR'S BALSAM OF WILD CHERRY. I accordingly procured a bottle, took it, and felt some better; obtained another, and a third; then I ceased to bleed and my cough was much better; but my disease was so deeply rooted, I was obliged to continue taking the Balsam until I had taken seven bottles. I can honestly and truly say, I believe Dr. Wistar's Balsam of Wild Cherry saved my life.

The great and only Successful
Remedy for the cure of Con-

IS DR. E. W. VONDERSMITH'S INDIAN COUGH
BALM AND LUNG BALM.
READ, &c.

Disease of the Lungs and Throat cured.
White Plains, April 20, 1847.
This is to certify that I have been afflicted for
five years with a cough, pain in the chest, night
sweats, difficulty in breathing, &c., and I also
expectorated a large quantity of frothy matter and
blood, from which I was reduced to a perfect
skeleton, my throat was very much ulcerated. I
had lunar caustic applied to my throat twice a
week, but received no benefit; I have used one
hundred different kinds of Patent Medicines, re-
commended by my friends, but all to no purpose.
A friend of mine, Mr. Willett, whose lungs had
been affected for two years past, was cured by Dr.
VonderSmith's Medicine. He insisted upon my
trying Dr. V., and I did so. After I had used his
medicine 15 days, I expectorated large quantities
of yellow fetid matter, my chest expanded, and
my difficulty in breathing subsided. I persevered
with his medicine, and the result has been, I am
perfectly cured of all my sickness. I recommend
every consumptive to try Dr. V.'s medicine, I am
confident it will cure you. Your sincere friend,
EDWARD G. THOMPSON.
Sworn before me this 21st day of April, 1847.
A. H. MICKLE, Mayor of the city of N. Y.
Inflammation of the Lungs.
New York, June 10, 1847.

Dr. VonderSmith:—I have been subject to a
cough, pain in the chest, difficulty of breathing,
&c., for many years past. About four months
ago I took a severe cold, which settled on my
lungs. I was unable to attend to my business
during the day. I would have dreadful coughing
spells, that I thought it was impossible for me to
survive unless I could get relief. The excessive
night sweats, had reduced my whole body to a
skeleton. I expectorated white frothy mucus,
in fact, should I give the full particulars of my
case, it would be almost incredible. I was recom-
mended to try Dr. VonderSmith's Indian Cough
Balm and Lung Balm. I consented; when I
had used it about one week, my cough decreased
considerable, which gave me great hopes. I con-
tinued with the medicine according to directions,
and the result has been that I am restored to health.
A blessing that I have not enjoyed for years, until
the present. I sincerely believe had I not made
use of Dr. VonderSmith's invaluable medicine,
that I would be mouldering in the silent grave.
Therefore I believe that I am doing nothing but
what is justice, in stating the above facts, so that
you may show it to all the afflicted who may call
upon you to administer to them. I shall be
pleased at any time to converse with the afflicted
who call upon me. Your grateful patient and
friend,
JAMES B. HENDERSON.

Consumption.
Staten Island, June 10, 1847.

Dear Sir:—I take great pleasure in giving you
my certificate, last December I was attacked with
a severe cough, pain in my left side, loss of ap-
petite, and continual raising of white and yellow mu-
cus. Some days I inhaled a half-pint of mucus,
streaked with blood. I have been under the treat-
ment of a dozen physicians. I was recommended
by Dr. Mitchell of Philadelphia, to use a breath-
ing tub. I purchased one, I only made use of it one
week, it was the cause of bringing on a hemor-
rhage of the lungs, which reduced me so much that
I was unable to sit up, my voice was entirely de-
stroyed, it was difficult for persons to understand
me. I saw Dr. VonderSmith's Medicine recom-
mended very strongly by a patient whom he had
cured. I sent for half a dozen bottles. I received
great benefit from that, which induced me to pur-
chase a dozen bottles, I took according to the di-
rections, and it cured me perfectly sound.
Yours, &c. ROBERT WILSEY.

Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet.
How much the beauty of a Sylph-like form is enhanced by a clear and brilliant complexion, is only known to those who are suffering from freckles, pimples, blotches, morphea, and other disfigurements of the skin, occasioned by the use of powder decorated with sweet names, such as Lilly White, Pearl Powder, &c., too often made of deleterious substances. To those who would say make a trial of this Cosmetic, and your complexion will be rendered beautifully clear, fair and blooming. Ladies are Cautioned
AGAINST using Common Prepared Chalk. They are not aware how frightfully injurious it is to the skin! how coarse, how rough, how yellow, how unhealthy the skin appears after using prepared chalk! Besides it is injurious, containing a large quantity of lead!
We have prepared a beautiful vegetable article, which we call JONES' SPANISH LILY WHITE. It is perfectly innocent, being purified of all deleterious qualities; and it imparts to the skin a natural, healthy, alabaster, clear, living white; at the same time acting as a cosmetic on the skin, making it soft and smooth.
Dr. James Anderson, Practical Chemist of Massachusetts, says: "After analyzing Jones' Spanish Lily White, I find it possesses the most beautiful and natural, and at the same time innocent white I ever saw. I certainly can conscientiously recommend its use to all whose skin requires beautifying."

Hyder's Pills.
The American Improved Hygienic Vegetable Medicine.
SAFE, CHEAP AND EFFECTIVE.
This medicine makes no pretensions to miracle. It has powers, the raising of the dead, or to induce and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and seeks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commination from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.
A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.
THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.
The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture, never before attained, yet free of animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing baldness and grey hair.
It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.
Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.
Manufactured and for sale by WM. BOGLE, 223 Washington, corner of Summer street, Boston. Sold in Newport by R. J. TAYLOR.
A Treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff, and preserving the natural beauty and softness of the hair, by Wm. Bogle, accompanies each bottle. Aug. 24—1y.

TO THE AFFLICTED.
DR. BANNING'S PATENT LACE!
An immediate Relief to Incipient Consumption, the Bronchitis of Public Speakers, Palpitation of the heart, Dyspepsia, Spinal Weakness, Piles, Protrusion, and Diseases of Women, without Medicines.
THIS instrument has been examined by Drs. Mott, Rodgers, Francis, and Griseom of New York, the faculty of Pittsburgh, Hartford, New Haven and Middletown, and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:
Middletown, June 25th, 1813.

Dr. Boardman.
Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1810; from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which for many years I have not been able to do. The piles, which have troubled me for nine years, are nearly eradicated. I work some in the garden, and am able to ride 4 miles at once with pleasure and benefit.
Yours, &c. Wm. RANNA.
Dr. G. M. Boardman.

Dr. Boardman.
Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, prolapsus of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument.
aug. 29th.

STEPHEN BROOKS, JR.
Providence, Feb. 25, 1816.
Doctor Boardman, Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She received some benefit from that—but it would not produce a cure. But now I can say with pleasure that she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write. But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks has or will do the cure in a very short time. I want to write more, but I have no time. I am truly, your friend and well wisher.

MR. ABRAHAM VANDERBEEK, of 98-Avenue D, New York, certifies that his head was entirely bald on the top, and by the use of two 3s. bottles of Jones' Coral Hair Restorative, he has a good crop of hair, and will soon have it long and thick.
Mr. William Jackson, of 80 Liberty street, Pittsburgh, Pa., certifies: On the 3d of February, 1817, that Mr. Thomas Jackson's head, on the top, was entirely bald for 15 years, and that by using two 3s. bottles of Jones' Coral Hair Restorative, the hair is growing fast and thick, and will soon be entirely restored.
Gray Heads! Gray Heads! Read—I hereby certify that my hair was turning gray, and that since I have used Jones' Coral Hair Restorative, it has entirely ceased falling—is growing fast, and has a fine dark look. Before I used Jones' Coral Hair Restorative, I combed out handfuls of hair daily. WM. TOMPKINS, 92 King-st., N. Y. e
Mr. Power, a grocer of Fulton-st., had his hair clucked up with dandruff, and Jones' Hair Restorative entirely cured it.
Do you want to dress, beautify, and make your hair soft and fine? Read—I, Henry E. Cullen, late barber on board the steamboat South America, do certify that Jones' Coral Hair Restorative is the best article I ever used for dressing, softening, cleansing and keeping the hair a long time in order; all my customers preferred it to anything else.

TO THE LADIES IN PARTICULAR.
MY DEPLORATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, principally when its growth has been confined to the upper lip and side of the face, giving a masculine turn to the whole features. When used with proper care, and according to the directions, it will be found to be a great addition to the toilet, as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application.
This composition is infallible, and warranted to remove superfluous hair. After numerous trials, I have received certificates of success which cannot be contested. For sale, wholesale and retail, at

MOTHER'S RELIEF.
IT is now about ten years since this medicine has been introduced to the public, and it stands unrivaled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the MOTHER'S RELIEF before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all fertile and nervous affection. It soothes and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c. causing frequent alarm, from two to three doses will give immediate relief.
As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.
CAUTION TO PURCHASERS.—Ask for HARRISON'S Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a facsimile of our own hand writing also. By attending to the above directions, no one need be imposed upon. All orders will be promptly attended to.

Miracle.
ON the 4th of August, in the year 1813, a singular scene occurred in the Royal Scientific Institution of France. The aged, white headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphant,) and his voice with gratulatory tone, delivered the following report:
"We are astonished at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement of, and even discolored skin! Where will its magic and singular power cease! The Negro, the Creole, the Yellow Race of the East, and the Red Men of the far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)
There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of JONES' ITALIAN CHEMICAL SOAP, in curing Pimples, Blisters, Salt Rheum, Scurf, Erysipelas, Sore Heads, Old Sores, Brind and Barber's Itch, Chapped and Tender Flesh, Freckles, Tan, Sunburn, and changing dark sunburn or yellow skin to a pure, clear white, as smooth and soft as an Infant's, and in fact every kind of eruption and disfigurement. Read these certificates:
[From the N. O. Sentinel, Oct., 1811.]
One of our subscribers, Mr. H. Leonard, informs us that he has been cured of old, scaly Salt Rheum, of eighteen years standing, on his head, fingers and hands, by a cake of an article much advertised lately—we speak of Jones' Italian Chemical Soap. He also informs us that he has tried its effects on his female slave Rose, marked with sun spots, and he found in two weeks her skin much clearer and whiter.
James Ellman, a painter in Jersey City, was cured of carbuncles and pimples, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.
Persons in purchasing this must always ask for Jones' Italian Chemical Soap; and perhaps, as many who have been cheated with counterfeits, will be too much discouraged to try the genuine, we say to such, try this once—you will not regret it; but always see that the name of T. JONES is on the wrapper. For sale in Newport by

READER! READER!
If you are afflicted with Bronchitis, Asthma, Obstruction of common Coughs and Colds, Spitting of Blood, Decaying of the Lungs, Whooping Cough, croup, asthma, or any of the stages of consumption, and all other Pulmonary or Lung Complaints, try
DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.
Names and residences of persons residing in the city of New York, who have been cured or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:
Mr. Hiram Anson, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.
Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.
Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.
Mr. L. W. Conklin, 102 Eldridge-st.
Mr. Alonzo Brown, 72 Reade-st.
Mrs. Morgan, 163 Front-st., Brooklyn.
Orange country, April 19th, 1816.

Dr. Emanuel.
Dear Sir—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.
Yours, dear sir, with great sincerity,
ISAAC J. BEED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.
Dr. Emanuel's Balsamic Lung and Cough Jelly, is sold by the Agent,
R. J. TAYLOR.
Price fifty cents a bottle, or larger sizes one dollar.

MY EAU LUSTRAL HAIR RESTORATIVE.
This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. Hair washed with this Extract soon becomes pleasingly soft and luxuriant in its growth, and it will positively bring in new hair on bald heads by its use; and hair that has been made harsh, and is turning gray or falling out, by the use of spirit or other improper preparations, will soon be restored to its natural color and brilliancy, by a few applications of the Eau Lustral.
It is a preservative against baldness, and an infallible cure in all affections of the skin on the head, as dandruff, and for preventing the falling off of the hair and turning gray.
Evidence.—Nature is an inexhaustible mine, in which experience and study will always find room to excavate; it is that source alone which produces all that man calls invention, and which he would do better, perhaps, to name adaptation.

Coggeshall & Bliss' Patent Cooking Range.
THE subscribers have just taken out letters patent for a new and beautiful cooking Range, in which they invite the attention of the public.
This Range may be set in the ordinary fire place, and by a simple, though efficient apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.
Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.
This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or co stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece; and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.
The subscribers have one of their Ranges in operation at their store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. They also keep constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.
